

# delta-k

JOURNAL OF THE  
MATHEMATICS COUNCIL  
OF THE ALBERTA  
TEACHERS' ASSOCIATION

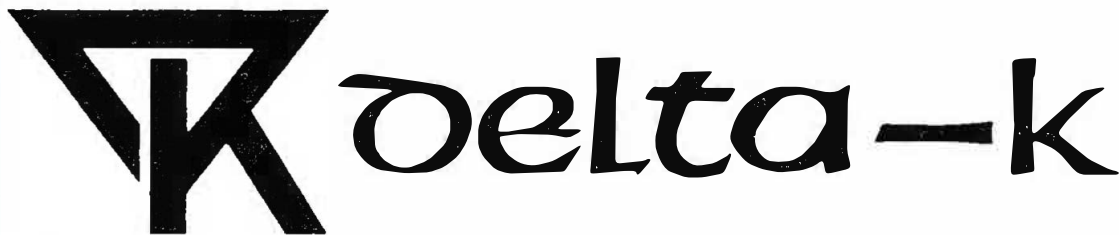

Volume 33, Number 1

December 1995

This issue of *delta-K* is dedicated to Norm Inglis.

Volume 33, Number 1

December 1995

## CONTENTS

Comments on Contributors	3	
Editorial	4	<i>Arthur Jorgensen</i>
From the President's Pen	5	<i>George Ditto</i>
From the Membership Director	5	<i>Daryl Chichak</i>
A Tribute to Norm Inglis	6	<i>Bob Hart</i>
Farewell to Art Peddicord	6	
1995 Outstanding Mathematics Educator Award Florence Glanfield	7	<i>Cindy Meagher</i>
1995 Conference and Symposium Photos	8	
Nouveautés en mathématiques	10	
The Right Angle	11	<i>Kay Melville</i>
The Space Detective Agency: A Summer Program of Mathematics and Science	12	
A Challenge	12	
Canadian Forum for Education in Mathematics	13	<i>Wendy Richards</i>
Professional Dates, Resources and News	14	
News from NCTM	16	
Pointers for Parents	17	<i>Jack Price</i>
Linda's Trisection	18	<i>Linda Chiem</i>

Calendar Math	19	<i>Arthur Jorgensen</i>
Mathematical Codes	20	<i>Louise M. Lataille</i>
Enhancing Mathematics Teaching in the Context of the Curriculum and Professional Standards of the National Council of Teachers of Mathematics	21	<i>Klaus Puhlmann</i>
Math Hunt: Providing Children with Real-World Problem Solving Experiences	28	<i>Connie K. Varnhagen, Fran Yeske, Zenia Nemish and Marcia Groves</i>
Selected Anecdotes About Anecdotal Comments	32	<i>Werner W. Liedtke</i>
“Geopardy” Géométrie	35	<i>Yvette d’Entremont</i>
Exploring Products Through Counting Digits, Part 2: Factors with an Unequal Number of Digits	41	<i>W. George Cathcart</i>
String Invasion: Conics Teaching Model	43	<i>Don Hillacre</i>
Games in the Primary Mathematics Classroom	46	<i>A. Craig Loewen</i>
Coping with the Vortex of Change	53	<i>Dan Jelinski and Jack Kelly</i>

## COMMENTS ON CONTRIBUTORS

---

*W. George Cathcart* is a professor in the Faculty of Education at the University of Alberta.

*Linda Chiem* is a student at St. Mary's High School in Calgary.

*Yvette d'Entremont* is an associate professor in elementary and secondary math methods at the University of Alberta.

*Marcia Groves* teaches at Windsor Park Elementary School in Edmonton.

*Don Hillacre* teaches at Spruce Grove Composite High School in Spruce Grove. In March 1995, Don received a \$2,500 fellowship from the Roy C. Hill Charitable Foundation for his use of the string invasion model in his classroom.

*Louise M. Lataille* is a professor at Springfield College in Springfield, Massachusetts.

*Werner W. Liedtke* is a professor at the University of Victoria.

*A. Craig Loewen* is a professor at the University of Lethbridge.

*Zenia Nemish* teaches at Windsor Park Elementary School in Edmonton.

*Jack Price* is president of NCTM.

*Klaus Puhlmann* is the superintendent of the Grande Yellowhead Regional Division No. 35 in Edson.

*Connie K. Varnhagen* is an instructor at the Centre for Research in Child Development, Department of Psychology, University of Alberta.

*Fran Yeske* teaches at Windsor Park Elementary School in Edmonton.

*delta-K* is the official journal of the Mathematics Council (MCATA) of The Alberta Teachers' Association (ATA).

The journal's objective is to assist MCATA to achieve its goal of improving teaching practices in mathematics by publishing articles that increase the professional knowledge and understanding of teachers, administrators and other educators involved in teaching students mathematics. The journal seeks to stimulate thinking, to explore new ideas and to offer various viewpoints. It serves to promote MCATA's convictions about mathematics education.
