## GUIDELINES FOR MANUSCRIPTS

---

- delta-K* is a professional journal for mathematics teachers in Alberta. It is published to
- promote the professional development of mathematics educators, and
  - stimulate thinking, explore new ideas and offer various viewpoints.

Submissions are requested that have a classroom as well as a scholarly focus. They may include

- personal explorations of significant classroom experiences;
- descriptions of innovative classroom and school practices;
- reviews or evaluations of instructional and curricular methods, programs or materials;
- discussions of trends, issues or policies;
- a specific focus on technology in the classroom; and
- a focus on the curriculum, professional and assessment standards of the NCTM.

### Manuscript Guidelines

1. All manuscripts should be typewritten, double-spaced and properly referenced.
2. All contributors are encouraged to submit their manuscripts on 3.5-inch disks using WordPerfect 5.1 or 6.0 or a generic ASCII file. Microsoft Word and AmiPro are also acceptable formats.
3. Pictures or illustrations should be clearly labeled and placed where you want them to appear in the article. A caption and photo credit should accompany each photograph.
4. If any student sample work is included, please provide a release letter from the student's parent allowing publication in the journal.
5. Limit your manuscripts to no more than eight pages double-spaced.
6. Letters to the editor or reviews of curriculum materials are welcome.
7. *delta-K* is not refereed. Contributions are reviewed by the editor(s) who reserve the right to edit for clarity and space. Send manuscripts to Klaus Puhlmann, Editor, P.O. Box 6482, Edson, Alberta T7E 1T9; fax 723-2414, e-mail [klaupuhl@gyrd.ab.ca](mailto:klaupuhl@gyrd.ab.ca).

---

#### MCATA Mission Statement

*Providing leadership to encourage the continuing enhancement of teaching, learning and understanding mathematics.*

NCTM Position Statement: Early Childhood Mathematics Education	28	
<b>TEACHING IDEAS</b>		
What's My Angle?	29	<i>Jane Barnard</i>
Calendar Math	34	<i>Arthur Jorgensen</i>
<b>FEATURE ARTICLES</b>		
Some Interesting Facts About Euler's Number	36	<i>Sandra M. Pulver</i>
The Probability of Winning and Losing at Craps and Roulette	39	<i>Sandra M. Pulver</i>
The Principle of Mathematical Induction: Its Power in Proving Conjunctive Propositions	41	<i>Murray Lauber</i>
Blueprints, the Division Algorithm, Consistent Systems and Augmented Matrices	46	<i>David E. Dobbs</i>
Motivating a Major Statistical Idea: The Standard Deviation for Populations and Samples	48	<i>David R. Duncan and Bonnie H. Litwiller</i>
Seven Mathematical Processes in the Protocol: Activities Give Them Life	51	<i>A. Craig Loewen</i>

## COMMENTS ON CONTRIBUTORS

---

*Jane Barnard* teaches at Armstrong State College, Savannah, Georgia.

*Betty Conaway* teaches literacy and language courses at Baylor University, Waco, Texas.

*Nora K. Conroy* teaches at Levy Middle School, Fellows and Harvard Place, Syracuse, New York.

*David E. Dobbs* is a professor of mathematics at the University of Tennessee, Knoxville, Tennessee.

*David R. Duncan* is a professor of mathematics at the University of Northern Iowa, Cedar Falls, Iowa.

*Richard T. Edgerton* teaches at Roosevelt High School, Seattle, Washington.

*Murray Lauber* is a professor in the Division of Mathematical Sciences at Augustana College in Camrose.

*Bonnie H. Litwiller* is a professor of mathematics at the University of Northern Iowa, Cedar Falls, Iowa.

*A. Craig Loewen* is a professor at the University of Lethbridge.

*Ruby Bostick Midkiff* teaches at Arkansas State University.

*Sandra M. Pulver* is a professor of mathematics at Pace University in New York.

*Thomas R. Scavo* is an educational consultant and technical editor.

*Michael G. Stone* is a professor of mathematics at the University of Calgary.

*Colin Szasz* is a Grade 12 student at Paul Kane High School in St. Albert.
