GUIDELINES FOR MANUSCRIPTS

delta-K is a professional journal for mathematics teachers in Alberta. It is published to

- promote the professional development of mathematics educators, and
- stimulate thinking, explore new ideas and offer various viewpoints.

Submissions are requested that have a classroom as well as a scholarly focus. They may include

- personal explorations of significant classroom experiences;
- descriptions of innovative classroom and school practices;
- reviews or evaluations of instructional and curricular methods, programs or materials;
- discussions of trends, issues or policies;
- a specific focus on technology in the classroom; and
- a focus on the curriculum, professional and assessment standards of the NCTM.

Manuscript Guidelines

1. All manuscripts should be typewritten, double-spaced and properly referenced.
2. Preference will be given to manuscripts submitted on 3.5-inch disks using WordPerfect 5.1 or 6.0 or a generic ASCII file. Microsoft Word and AmiPro are also acceptable formats.
3. Pictures or illustrations should be clearly labeled and placed where you want them to appear in the article. A caption and photo credit should accompany each photograph.
4. If any student sample work is included, please provide a release letter from the student's parent allowing publication in the journal.
5. Limit your manuscripts to no more than eight pages double-spaced.
6. Letters to the editor or reviews of curriculum materials are welcome.
7. *delta-K* is not refereed. Contributions are reviewed by the editor(s) who reserve the right to edit for clarity and space. **The editor shall have the final decision to publish any article.** Send manuscripts to Klaus Puhlmann, Editor, PO Box 6482, Edson, Alberta T7E 1T9; fax 723-2414, e-mail klaupuhl@gyrd.ab.ca.

Submission Deadlines

delta-K is published twice a year. Submissions must be received by August 31 for the fall issue and December 15 for the spring issue.

MCATA Mission Statement

Providing leadership to encourage the continuing enhancement of teaching, learning and understanding mathematics.

CONTENTS

Comments on Contributors	3	
Editorial	4	<i>Klaus Puhlmann</i>
FROM YOUR COUNCIL		
From the President's Pen	5	<i>George Ditto</i>
The Right Angle	6	<i>Kay Melville</i>
READER REFLECTIONS		
Comments on "Calendar Math"	7	
British Math Fails to Add Up	8	<i>Nicholas Pyke</i>
Why We Lag Behind in Math	9	<i>David Burghes</i>
From <i>Smilla's Sense of Snow</i>	11	<i>Peter Höeg</i>
STUDENT CORNER		
$y = x^2$	12	<i>Helena Fung</i>
Poem of Mathematics	12	<i>Stephen Samogyi</i>
"Jabberwocky" as an Equation	12	<i>Brendan Halloran</i>
The Conic Song— $Ax^2 + Bxy + Cy^2 + Dx + Ey + F = 0$	12	<i>Ajit Paul Singh</i>
NATIONAL COUNCIL OF TEACHERS OF MATHEMATICS		
NCTM Standards in Action	13	<i>Klaus Puhlmann</i>
Assessing Mathematics Learning for Students with Learning Differences	15	<i>Lee Cross and Michael C. Hynes</i>
Assessing Mathematical Processes: The English Experience	23	<i>Malcolm Swan</i>

TEACHING IDEAS

Une sortie mathématique!	34	<i>Hélène Gendron</i>
Is This a Math Class or an Art Class?	35	<i>Harold Torrance</i>
Word Problems a Problem? WHAC 'Em	37	<i>Harold Torrance</i>
The X and Y Files	39	<i>Kelly Paul</i>

FEATURE ARTICLES

Two Facets of the Linear Regression Process	40	<i>David R. Duncan and Bonnie H. Litwiller</i>
How Much Zooming Is Enough?	42	<i>David E. Dobbs and John C. Peterson</i>
Analysis of Teaching Trigonometry in the Context of University Mathematics	49	<i>Natali Hritonenko</i>
Diophantine Analysis and Linear Indeterminate Problems	54	<i>Sandra M. Pulver</i>
Students Creating Stories in Math Classes	57	<i>Florence Glanfield</i>

UPCOMING CONFERENCES, NEWS RELEASES AND INFORMATION

The Alberta Advisory Committee for Educational Studies (AACES)	60	
Improving Mathematics Achievement by Effectively Integrating Technology	64	<i>Barbara Morrison</i>

COMMENTS ON CONTRIBUTORS

Karen Bell is a graduate student in mathematics education at the University of Georgia, Athens.

David Burghes is a professor of education at the University of Exeter, England.

Thomas J. Cooney is a professor of mathematics education at the University of Georgia, Athens.

Lee Cross teaches assessment and methods classes for preservice teachers of students with disabilities at the University of Central Florida, Orlando.

David E. Dobbs is a professor of mathematics at the University of Tennessee, Knoxville.

David R. Duncan is a professor of mathematics at the University of Northern Iowa, Cedar Falls.

Diane Fisher-Cauble is a graduate student in mathematics education at the University of Georgia, Athens.

Helena Fung is a Grade 11 student at Archbishop MacDonald High School in Edmonton.

Hélène Gendron is a French Immersion teacher at Jubilee Junior High School in Edson.

Florence Glanfield is a doctoral student in the Department of Secondary Education at the University of Alberta, Edmonton.

Brendan Halloran is a Grade 11 student at Archbishop MacDonald High School in Edmonton.

Peter Höeg is the author of *Smilla's Sense of Snow* (1992).

Natali Hritonenko is a research associate for the Department of Physics and provides tutoring services in the Mathematics Department, both at the University of Alberta, Edmonton.

Michael C. Hynes is director of the Martin Marietta/University of Central Florida Academy for Mathematics and Science Education, Orlando.

Bonnie H. Litwiller is a professor of mathematics of the University of Northern Iowa, Cedar Falls.

Barbara Morrison is supervisor of mathematics with the Calgary Catholic Board of Education and is currently working with ITP Nelson.

Kelly Paul is an undergraduate student at the University of Alberta, currently completing Phase 3 student teaching.

John C. Peterson is a professor of mathematics at the Chattanooga State Technical Community College, Chattanooga, Tennessee.

Sandra M. Pulver is a professor of mathematics at Pace University in New York.

Nicholas Pyke is a journalist writing for the *Times Educational Supplement*, London, England.

Stephen Samogyi is a Grade 11 student at Archbishop MacDonald High School in Edmonton.

Wendy B. Sanchez is a graduate student in mathematics education at the University of Georgia, Athens.

Ajit Paul Singh is a Grade 11 student at Archbishop MacDonald High School in Edmonton.

Malcolm Swan is a lecturer in mathematics education at the University of Nottingham, Nottingham, England.

Harold Torrance is a mathematics specialist with the Kauai School District in Hawaii.
