# Delta-k

Volume XIV, Number 2, November 1974

## Editorial

The 1974 annual meeting of MCATA was held in Jasper, October 25-26. The planned program was very interesting. We are unable to comment on the unscheduled impromptu portions since they did not meet publication deadlines, but a report will appear in the January *Delta-K*. The deadline for contributions is January 3. We invite your comments, contributions and/or suggestions for activities that MCATA could use as a service to all.

Our metric missionary workshops are being received with enthusiasm. They are intended to compliment the area meetings of Dr. Lindstedt by preparing teachers with advance information, or as a follow-up to provide further aid, in areas where Dr. Lindstedt precedes our group. We had planned to terminate the program at the end of November - except for conventions and institutes - however, I am sure I can speak for all of us involved when I say that additional meetings could be scheduled, at later dates, where the service is requested.

Do you have a math club? If so, how did you organize it? Or, do you want assistance in forming a math club? We are interested in assisting new clubs and would therefore appreciate having this information. Although it is of interest primarily to secondary school groups, consideration of such a club in elementary schools might be feasible.

A new service to appear in *Delta-K* as soon as the questions start coming in, will be "The Question Box." Do you have a specific question? The editor will answer all queries in "The Question Box."

MEET YOUR 1974-75 EXECUTIVE — page 2.

### **THINK DENVER - APRIL 23-26, 1975**

Plan now to attend the annual meeting of the National Council of Teachers of Mathematics, in Denver, April 23-26, 1975. A group flight is being arranged by your Math Council. For more details contact
