

# 33.

## Math Game Boards

**Objective:** To make a game board that students will use to reinforce basic addition, subtraction, multiplication, or division skills.

**Materials:** 1 piece manila tag, felts or pencil crayons, small playing cards

- Procedure:**
1. Have students design their game board and decorate it using such items as pencil crayons, felts, and stickers. (A sample game board is shown below.)
  2. Have students write, on small playing cards, basic facts involving either addition, subtraction, multiplication, or division. For example:  $2 \times 6 = \underline{\quad}$ .
  3. Have students design the rules of the game and write them on the back of the game board.
  4. If you wish, laminate the game board and cards so that they will last longer.

**Variations:** Vary the procedures according to the needs of individual students.
